

The SHOOTING Stars of Cochise County Ladies ONLY Training

Firearm Safety & Orientation Classes for new shooters interested in joining our ladies training program are held monthly at the Sierra Vista Shooting Range. As the class size is currently limited, registration is required for your first **FREE** class .

All ladies are required to take the initial orientation course in order to participate in The Shooting Stars Training Program, regardless of their level of expertise. All shooters **MUST** be at least 18 years old. Monthly Graduate Shoots are also in place every 3rd Saturday of the month for ladies wanting to join the team and continue learning throughout the year. Special events will be announced as they are confirmed.

Initial Orientation Class consists of a 1-Hour Firearms Safety Instruction Course followed by 1 Hour out on the range with an experienced coach helping you take your first shots or assisting the experienced shooter in working on those more challenging ones. New shooters will learn everything from A-Z about safe gun handling, determining your dominant eye for shooting, techniques on proper aim, breath control, stance, gun grip, trigger control, how to follow through on each shot and much, much more! Our program provides women a place to go where they can continue to learn and practice in a Safe, Fun & NON-Intimidating environment. If you've never touched a gun in your life and want to learn or you are an experienced shooter looking for a fun place to go and practice with the gals, this is the place for you!

Firearms, ammunition, eye/ear protection & personal trainer will be provided by the range for your first **FREE** Safety Orientation Class!!! For additional courses available please see our website:

www.myshootingstars.net
